SGC LABELING SYSTEM

Tape and Label Compliance System

REFERENCE: OSHA Construction Standard: 29CFR1926.51

Sanitation (a) Potable Water (1) An adequate supply of potable drinking water shall be provided in all places of employment.

(2) Portable containers used to dispense drinking water shall be capable of being tightly closed and equipped with a tap.

Water shall not be dipped from containers. (3) Any container used to distribute drinking water shall be clearly marked as to the nature of its contents and not used for any other purpose.

THE ULTIMATE safety seal for water coolers in the construction industry. One roll marks and seals approximately (38) ten-gallon coolers. When removed, it leaves no sticky residue that could attract airborne contaminants.

WARNS DRINKERS that dipping contents from the water cooler is strictly prohibited. It also provides additional space for documenting: Contents, Date Prepared, Times Prepared, Preparer's Initials, and Owner's Name. Each LABEL is designed to be used up to (3) times/day for (7) days. Labels are printed on durable, adhesive back, white vinyl stock.
